**Re: Distribution Code Version 7.0**

Dear Paul,

I refer to your recent correspondence to the CRU seeking approval for the Distribution Code version 7.0.

The CRU is satisfied that the modification incorporated into Version 7.0 has been approved by the CRU. The only modification incorporated is:

- Modification # 43 - Proposed Distribution Code structural changes to facilitate adoption of RfG (and subsequent) Network Codes

The CRU notes that some additional minor modifications in updating the name of the Commission from the Commission for Energy Regulation, and some typos picked up in version 6, have also been carried out.

The CRU has examined the Distribution Code version 7.0 and hereby approves it. We look forward to the publication of this document.

Yours sincerely,

Sent by email and accordingly bears no signature
