38kv –Contestable	9,037
110kV	59,660
110kV –Contestable	5,958
Customer supplied & G10	0

Guideline to Where EGIP Applies

- **Full EGIP applies for the following;**
 - New ESBN substation or second connection
 - > 2MW installed
- **EGIP with relays only & no ESBN breaker applies;**
 - Demand user
 - >2MW
- **G10;**
 - Demand user
 - <2MW
- Detailed criteria & costs provided by ESBN

- **Where ESNB requires full EGIP but Nulec is LCTA then Nulec costs applies**
- **This can create a refund at handover stage payment for contestably built MV connections**
